DIPLOMACY NEWS

From GRANSTARK #274, " TDA membership, which includes a subscription to WAZIR, is \$1 from John Beshara." From WAZIR #4, "the Board of Directors must suspend the publication of Wazir so as to concentrate its efforts towards promoting Diplomacy through our other programs." False advertising is a no-no Boardman!

New Magazines by the Dozen, but you don't get egg roll!

ARRAKIS: Is published by John Leader, Box 1606, Huntsville, Ontario, CANADA. Featured in issue #1, are things like game openings(two- \$4.00 fee, countries by list, One for experienced players, other for novices: state your experience, air-mail address for foreigners, \$1 discount for IDA members), contests(spotting spelling mistakes, free game to those spotting 10 or more(if I had one like that, can you imagine...)) Pun-of-the-Month Club...the person who submits best pun gets some free issues, Grinding the axe(hes going to let his opinions fly), and an ad for MARCUS which makes the whole zine worthwhile! Subscriptions are 100 pages for \$1.00, which is the cheapest anywhere. I recommend this one!

CARPET BAGGER: Is the result of Stephen Bell, P.O. Box 1709, Asheville, NC 28806. This is one of the better new ones from south of the border (not from the border). There are six games openings: CBa for skilled players, Novice in, CBBR game of CBa, Barents and Proujanaky playing. CBe: a press release game, Massar and Trtek playing. CBD: novice game. CBM Novice game, playing are: Cain, Walker(p.), Greenwood, Meyer, Richard I, McBride, and Gross, one more needed. CBF: for anyone. All games except CBF require a game fee of \$3.00. \$4.00 of this will be refunded when the game is completed. The idea is to prevent drop outs. CBF requires a game fee of \$4.00 with no refund....\$2.00 fee for traders. Looks good. (Good articles too).

SPQR: Is produced by James Massar, 127 N. Elmira St., Danvers, NY 12929. There are game openings in Origins of WTL, and the Youngstown Variant, and others as there is demand. The game fee is \$1.00 plus postage plus \$1.00. The best thing about SPQR, is that Massar rounds off a list, and you can try to finish off Good size anyways, if you like variants. Oh, that sub rate is \$1. a year.

PULSAR: Is from Mark Thomas, 470 Johnston Dr., Watchung, N.J. 07060. This zine is a little special. The game fee is 00000 dollars! that's \$0.00. So, you take no risk whatsoever in this one. To play though, with your orders, you must tell Mark why you moved as you did...what you expect to gain! Also, you must include all correspondence you received since the last deadline: it will be copied and returned. What Mark will be doing is, with the games publishing game histories: the games running will be republished whole when completed with the comments etc. Your comments will not be published till then. All you need do is send your name, address, phone number, and preference list, and your in a game. Go it now!

RECOMMENDED BY THE ONLY TRULY GOOD ADVICE READER IN THE ENTIRE WORLD.

IMPASSABLE: Published and edited by John Boyer, 117 Garland Dr., Carlisle, Penn. 17013, is considered by many to be the best kind on the market, and can be by me, save that I consider the author of this has not some other qualities. "Boyer" has articles, editorials, poems, quotes, new jokes, news, biographies, puzzles, question and answer column, Diplomacy news, and general news. There are game openings in one experienced game, and a variant: Scotice Scripti III, game fee \$5.00. Subscriptions rates are \$6.00 and \$7.00.

CCO: Parkway Terminal 5525 Thunderbird Lane, La Jolla, San Diego

COA: Open Office Application for Microsoft Word

ADDITION: See an interview with the author in *Journal of Oral History*, 1983, 11, 1, 1-12.

COA: Standard Bell 102

GOAL: 1100000000

CCOA: Ed Back, Suite 208, 18 Mole
CCOA: Low Building, old address.

MARCUS STANDBY LISTS HIT ALL TIME LOW: THANK GOD FOR GOOD PLAYERS WHO DON'T KISS

But, that isn't enough. People just have to quit at some time, and when they do, somebody must be there to replace them. So, PLEASE, in the name of HABER, register in the student list. And if you're on the mailing list, you should be on the student list. Special thanks to Arnold Prinzipal.

1972 I: Nobody here! I believe every player in this game will not consider resigning, so if you do not like to play Diplomacy, sign up here! If you do, well, sign up anyway! No need to worry!

1972 R: Nobody again. I've got to have somebody in the lists. Help out! CONP
MYV: ARNOLD PHILLIPS!!!! This is page of Arnold's are you guys all nervous? CONP
But, the thing is, I don't know who will be called off the lists so there won't be much time.

delinquent with Germany this year. Please sign up now before you'll need emergency services. Please sign up here. I have a lot of info I had after being thrown back THUNDERBIRD 10/10. If you're looking for a place of the Pennsylvania Workforce Commission then this is the place. Please sign up now for emergency data. Each year as we've met any crises as they come...but never the less, we need you!

There is now a new special standby/subscription rate for MARSH, and THUNDERBIRD, and VINLAND! ~~Look for more information in the next issue of the magazine.~~

AUSTRIA builds a tri. ENGLAND removes a fin. GERMANY builds a kig. RUSSIA builds a 'n' ver. SWEDEN removes front fin off tail. ITALY removes CA (Tentative) to 14.000. SWEDEN I as well. England and the Royal Yacht Club are silent to submarine and as post-war troop positions: some believe one could expect an early return before the end of 1945. Others are afraid because of the way Montague said on Aug 13th of 1945:
AUSTRIA (Rauch): a 'n' ver, Gid, propellor, hull shape, etc. believe value now to 1945 and before ENGLAND (Bennett): (Tentative) 1945 to 1946 and not at all possible, and to 1946 and 1947 before PRANCE (Trotter): same as above, however; if we're off. SWEDEN removes submarine but will return after GERMANY (Borsig): one and a half years, Gid, propellor, hull shape, etc. until about 1946 and before ITALY (Gatti): a 'n' ver, prop, f's mid, ion. RUSSIA (Stone): 1945-1946, same as above, etc. until 1947, Gid, propellor, hull shape, etc. until 1948 and before TURKEY (Weber): same as above, until 1949, Gid, propellor, hull shape, etc. until 1950 and before

THE SPRING 1964 deadline is October (October) 20, 1972 at noon. Note M.A.'s COA.

MOSCOW: The Russian government today urged the German government to remove German armies from Poland and to withdraw all German troops from the Soviet Union. Furthermore the German government is asked to release all Soviet citizens, including nationalities and on German soil when Russia controls

WARSAW: The bulk of the Austrian crew has been paroled and sent back today in a brief news conference. He went on to say that Austria will be crushed just as Turkey, Yugoslavia and Greece were crushed across the same border (yes, I am sure you are thinking of the Balkans) and that Austria is in sight.

BERLIN: The (unprovoked) intrusion of the Russian troops into German territory presents a perfect example of unmitigated savagery and treachery. Germany stands behind her Austro-Hungarian allies to the death, and must therefore declare war on Russia. The German people are fully aware of the obligations to this great alliance, and the German Government must stand by her. The German people are fully aware of the obligations to the Hungarian people, and the German Government must stand by the Hungarian people. The German Government must stand by the Hungarian people.

MURKIN: Let me assure you that I am a decent and good person. I help and offer advice to many. Speak your mind.

DEFAT OF TURKEY: AS SEEN FROM RUSSIA: The view from up here is quite good for now, as the spectre of Austria and Germany loom on the horizon. But as I always say, one united driving force is better than two split ones.

Now to get back on the subject, sure Turkey promised Russia the world, but he wanted the rest of the solar system and the Milky Way in return. No wonder I stabbed him, the sight of him, sitting in his harem (of young calico boys), sucking his Milky Bar and drinking goats milk. The sight turns me sick often. Maybe I should have listened to Turkey, my former allies are turning on me. Blah!!

But I promise you, I will write Austin's obituary if it kills me. I Can't let that sack guy win, no way. Anyone else, but not that dirty lying, cheating, bastard!! NO WAY!

MARCUS YOUNGSTOWN VARIANT: WINTER 1902.

FRANCE (Peter Bennett), GERMANY (Klein), HUNGARY (László), JAPAN (Izumi), TURKEY (Wilson).

I am asking John Ostapovich to send Richard Greenwell a copy of LEGION now. Richard, you owe John 30¢.

250 B.C. PHASE ONE ORDERS ARE DUE ON NOVEMBER 11, 1972.

MORE THAN VOTES

CENSORSHIP.... The Canadian Radio & Television Council has actually approved a Walt Disney program! This may seem very remarkable, but according to the CRC, the current program, on CBC in Canada, and NBC in the US, "Savage Sam", the picture given to Indians in that film is bad. I think the thing resulted in Indians complaining about it. Besides the fact that the censorship seems rather heavy(after all....Walt Disney!), it does show that minority groups can have a voice!

A couple of things appeared in the mail today, worth noting.

PELUCCIDAR: This is another new zine (popular, aren't they?). It's from Burt Labella(above) with co-editor Tom Killo. Subscriptions are 7/\$1 or 15/\$2 and game fees are \$5. There are 3 regular issues and one Yearend issue. They will be at the show.

sabotage and the like. However by the Republican party, I will give the don't believe
in any support for any party. Besides that, I do not know whether I can believe
the newspaper, and I doubt that is putting my decision impossible. To
conclude, I give my vote to John Stanfield, and I will vote
candidates, and I will do my best to support him. In Canada, I
In Canada, I think that Gerald Ford (REP) and the
can see, is the best candidate, and I will support him. As for
me. As for Pierre Trudeau, I think that his past service is an example of what
to expect in the future if he's elected. Unemployment is at an all time high,
7.1 % of the population. Added to this the Liberal party is claiming that
Canadian economic growth is second only to Japan. Maloney! With the worst employment
-rate in the entire industrialized world, we have the 2nd best economy! That does
not make sense to me, especially when the past four years have been afflicted with
layoffs and shut downs. As far as availability of jobs is concerned, one
grocery store is opening here, and when it came time for applying for jobs there,
100's of applicants showed up. This, as far as I'm concerned is the major achievement
of the Liberal Party of Canada, and this is why I support Stanfield who has pledged
to correct it. Of course, I'm only 16-no vote-but look out in 76-you'll likely
get more crap than ever like this. Oh well, suffer. ((Burt-look at me will yah))

GAME OPENINGS: In VINLAND, there are two game openings (two open games) that need players. You must be a Canadian, or at least live here, and that's all. The game fee is only \$2.00 with a registration form filled out. Join now! Write me for a form; I want you!

In VINLAND there may be a game opening depending upon response to ATLANTICA! In order to give you a bird's eye view of the game, on pages 10 & 11 you will find the map for ATLANTICA. You can figure out the European situation easy enough. For the "new world" the placings are:

CANADA: A's Toronto, Montreal, & P. MONTREAL

USA: A's PHILADELPHIA, Chicago, & P's Boston & New York.

CSA: A's Richmond, P's Jacksonville, Charleston.

Also, England gets 3 Fleets (one can stay), Italy two, Berlin is another Fleet for Germany, and France gets Marseilles as a Fleet. Variations on rules:

Convoys: over single spaces are in Diplomacy. Over more than one, it is necessary for an army to board a fleet, creating an A/F (Army on a Fleet) unit. The unit loses, which may exist up to five turns...if the army is annihilated by them, it is annihilated, the fleet remaining. In disbanding, the army unit A/F may move, and the fleet support that move too!

Frozen areas: In the winter, several areas at the top of the board are impassable to fleet action, and fleets cannot land in a frozen area without ships. The frozen period exists from January to April.

Date: The year is 1870 (initial year). Instead of seasons, play continues by months. i.e. Spring 1901 would correspond to January 1870. Fall 1901 would correspond to February 1870. Winter 1901 would correspond to March 1870. In March battles occur, as removals.

Victory Criterion: In 24 turns out of 47. A unique feature is that you can split the win with another player: a joint victory is possible.

Now.....if you are interested in playing, just send your name, address, country preference list, and \$4.00 to me. You will receive a full set of map and detailed rules. I've decided to make this game definite. It will be run in THUNDERLAND, with Legion, and the 10/10 TV series. Signed up in Richard Greenfield, play today, and have fun!

TYPING: This issue you may have noticed that I'm using computer printer yet, this time with elite type. I'm hoping that this will not interfere with the quality of the print, but it was the best I could do.

MEMOS: Errors are numerous, as in every issue, as I guess it's just me. Notice my headline for this column (sheesh). I do correct all errors possible.

LATE EDITORIAL, OR COMMENTS AS YOU WISH: This issue has been reasonably delayed due to the fact that my shipment of paper from AB DICK was late in arriving. In fact, it didn't arrive Today, 5 days after the date it was due to arrive, I was informed that my paper was in the Canadian National Express Office, 4 miles from here. And that office has only the right to deliver parcels up to 3.09 miles away or something....noting if I lived on the other side of the street they would have delivered it to me. But alas, I am now forced to take a taxi over to the office tomorrow. Tomorrow also, I will run off MARCUS and VINLAND. It will be mailed out on the Friday - morning. This shortens the negotiating period to 2 weeks, but since we've just had our insignificant builds, and many orders are already in....I see no reason for not getting in orders. Of course, you should take a day out and write a few words of press.....

Blair Cusack's IV article series, "Fascism will continue next issue, if he gets his moves in! "Anybody who wants to write a letter to the editor" I will be glad to print it. Maybe it will get some discussion going; we need it! If not, I'll write a lengthy editorial next issue to get some people talking, so if you don't want that, write! "I'm not I told you this is all I borrowed typewriter. I have still got to pay the rent, and the credit card balance is over \$100 on one, and over \$100 on the other, and I don't think anybody would be happy with me owing \$200 on these. I'll try and swing something. I'm thinking of a 1000 LEX computer, but am not sure. With salary, it may be slightly out of my range. Oh, and lastly, I am now connected to a computer, if anybody has some ideas as to what I can do with it. It's school property so I'll receive the output prints or whatever after the input, so I can't do a copy of MARCUS in computer; also, I doubt if they would let me have all the paper. I hear that if they do, output is a job and takes 6 minutes. After 6 minutes they stop it! That'd give me a problem, though. Because, I doubt if the key punchers would stop me from doing it. So, if you have any ideas in mind, DIPLOCON VI is being held once more in Chicago this year, and those interested in going from Ontario, I'd like them to contact me. Also, I'm contemplating an Ontario mini-con....

If you have any comments, please write.
